

does the word
COMPLIANCE
make
you nervous?

Exposure To Increasing Regulatory Audits have increased since 2001.

In a world of increasing identity theft and ever-changing legislation, companies are becoming more and more aware of steep financial penalties and potential jail time associated with non-compliance of document and electronic shredding.

Shredding Alone Is No Longer A Viable Solution.

In recent years, business owners and compliance officers have been forced to seek out increased security measures to ensure mandatory compliance. Business owners need to prepare themselves for the potential situation of an audit or lawsuit. A situation that can leave a business in financial ruin.

The Most Advanced Security System In The U.S.

PRO•TEK Document Destruction offers companies both **document** and **electronic** media destruction with an exclusive program called Safeguard Destruction Advantage.

Safeguard Destruction Advantage®

Absolute Auditable Proof Of Disposal

PRO•TEK Safeguard Destruction Advantage offers a new comprehensive program designed to shield you and your business from the burden of destroying confidential information and ensure absolute auditable proof of disposal. It is a process that secures and tracks your documents through PRO•TEK's unique barcoding and GPS tracking system.

Online Account History

With software specially designed by PRO•TEK, our clients can login to our website, view their account history, including date and time stamps of each pickup, and view a video of the actual destruction of their documents!

Safeguard Destruction Advantage®

PRO•TEK Document Destruction provides absolute auditable proof of proper disposal by providing features like *convenient pickup schedules*, secured *office-grade bins* that blend in with your work area, and complete *site evaluations* to help your employees become more compliant with less effort. Most importantly, what makes the Safeguard Destruction Advantage complete and fully reliable is the development of PRO•TEK's unique features:

Bonded Employees

All PRO•TEK employees are processed through full background checks, sign confidentially agreements and are fully bonded and insured. Every plant operator wears pocket-free clean-room suits to insure the highest level of security.

Barcode and GPS Security

PRO•TEK uses a unique proprietary system that informs the client with date and time of document and bin pickup, truck transport, plant arrival and final destruction. Our trucks are equipped with Geographic Positioning Systems (GPS) that tracks the location of each truck, so we know where your documents are every step of the way.

Deguassing

PRO•TEK addresses the newest compliance concern involving electronic media disposal. Complete unrecoverable erasure and destruction of hard drives and other media including Cds, DVDs, and memory sticks.

Video Proof and Hard Copy Documentation

With software especially designed by PRO•TEK, our clients can login to our website and view detailed account history and video of the final destruction of their documents.

Online Newsletter

PRO•TEK customers stay up to date with ever-changing regulations set forth by legislative organizations that effect your business with our free online newsletter.

Advanced Security. Increased Compliance. Competitive Pricing.

**You shred to protect your customers,
Use PRO•TEK to protect your business.**

Consoles, Bins and Pricing

Office-Grade Consoles

Studies show employees are more compliant when bins are conveniently placed near work areas. PRO-TEK provides a variety of office-grade console bins that are placed free-of-charge.

- Available from 24" to 40" in height.
- Great for placing under or near desks.
- Barcoded and secured interior bags replaced each pickup.
- Low profile presence fits into standard office environment.
- Tamper evident.
- Convenient, front-loading slot leaves entire top surface available for other office accessories.

Back-Room Bins

Ideal for mail rooms and back office areas. Useful during occasional purging of data and can be placed temporarily.

- Available from 65 gallons or 96 gallons.
- Constructed of high performance injected plastic.
- Bins replaced each pickup.
- High profile presence helps ensure compliance.
- Tamper evident, keyed alike with convenient, front-loading drop slot.
